It must be at least 17 years prior to the retirement date and not more than 45 years prior to the retirement date (requests that contain 45 or more years of service for basic pay purposes must be mailed to the Retired Pay Department for manual pay computation).

BLOCK 10: Ask your disbursing office in for help to obtain this date. Enter the Active Duty Base Date (ADBD) in month / day / year format. When the ADBD is subtracted from the retirement date, the resulting active duty service must be equal to or greater than 20 years.

BLOCK 11: Ask your disbursing office for help to obtain this information. An entry in this block is required only if you have active service not included in Block 10. Examples of service creditable for retirement include but are not limited to:

FOR ENLISTED MEMBERS: Constructive service earned before December 31, 1977;

FOR OFFICERS: Medical / Dental Corps constructive credit and / or inactive reserve service after May 31, 1958.
